How do you deliver productivity and efficiency? When your work involves managing information, you probably rely on a number of key enterprise solutions to enable productive and effective working practices. These enterprise solutions might include portal solutions, search tools, collaboration platforms, and business intelligence features.

SharePoint A Strategic Value

Ease of Use

- ❖ Provide simple, familiar, and consistent user interface experience.
- ❖ Leverage existing investments.

Simplifying Everyday Business Activities

- ❖ Workflow automation.
- ❖ Report Center.
- ❖ Team Collaboration & Activity Tracking.
- ❖ Manage Content and Document easily.

Business Intelligence and decision making

- ❖ Give users access to business data in common LOB systems like SAP and Siebel through OOB connectors.
- ❖ Rapid creation of reporting dashboards.

Silverlight based video player and Slide Show

We have developed a Silverlight based video player and Slide Show for playing video files from a SharePoint library.

Silverlight based Dashboard web part

We have setup Silverlight chart component to display various charts in a dashboard. Top executives can quickly get an idea of current situation of sales, leads revenue etc by looking at the dashboard.

Combining SharePoint and Twitter

Knowing where your colleagues are at when you're at work can be very important. We don't always update our "Out of the office" message in Outlook, and it seems a hassle sometimes to change our voicemail.

Staffing Services firm using MOSS

The client services the requirements of over fifty top information technology companies covering the entire gamut of the software space. The profile that was gathered as part of these searches, although highly valuable, was being stored in email and on file servers. Consequently, the profiles were often lost or misplaced, requiring the researching agents to repeat the entire process. Collectively, the process was costly and resource intensive, wasted time and resources.

Project Management using MOSS

The customer is a giant into product development. They have huge no. of clients and partners working in automotive, banking, consumer products, electronics, engineering, garments, information technology, & telecommunication industries. They are motivated and inspired every day by how their customers use their software to find creative solutions to business problems, develop breakthrough ideas, and stay connected to what's most important to them.
